Accessory

9145

METALUX® 9145 Anti-Static Final Wipe is a specifically formulated solvent blend that has been designed to prevent the build-up of static. Recommended for use on substrates prone to static build-up such as plastic bumper covers (Polypropylene).

Features & Benefits:

- Works Well on All Surfaces
- Eliminates Static
- Can be Sprayed or Wiped on
- Fast Evaporation

Application:

Wipe on 9145 using a saturated wipe followed by a clean lint free cloth. Wipe in one direction only.

Available Package Sizes:

- 1 Quart (0.94 Liters)
